Welcome to **BRYNOLF** **MANUFACTURING, INC.**

WE ARE YOUR HIGH QUALITY MANUFACTURER of cold headed standards and special fasteners. With diameters from #4 to 5/8", M3 to M16 and lengths up to 6.25"/160mm, let us supply you with all of your fastener needs.

We have quality sources for heat treat, plating, patch, and sorting so we can ship finished parts right to your dock.

About Us

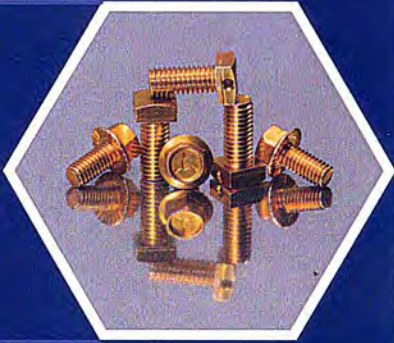

BRYNOLF MANUFACTURING, INC. opened for business in Loves Park, Illinois in March of 2000. The company was started by brothers, Bob and Dan Brynolf, who between them have over 70 years of experience in the fastener industry. The company is currently managed by Dan and Bob's two sons, Chris and Zack, who both have close to 20 years experience in the industry.

In June of 2004 we moved from a 17,000 square foot facility to nearly 40,000 square feet of manufacturing space in adjacent Rockford, Illinois. February of 2009 marked the launch of our ever-growing division of self-drilling screws, and in July of 2012, we moved again to a 116,000 square foot facility. We are positioned to meet the growing needs of our customers through increased capacities and expanded capabilities.

Brynolf Manufacturing provides product through commercial construction distributors and industrial distributors. We pride ourselves on competitive pricing, quality products, and timely delivery. We have been ISO 9001 registered since June of 2001 and remain a family owned and operated business.

Our Mission

BRYNOLF MANUFACTURING, INC. is committed to continual improvement of customer satisfaction from inquiry response through timeliness of delivery and overall dependable performance. These efforts are led by top management taking into consideration the context of the organization and provide every employee with creative involvement through risk-based thinking.
